INTRODUCTION

Who are we?

Coming from the agricultural sector, we are well aware of the challenges of mobility and autonomy on farms. That is why we founded CR INDUSTRY, in Vendée, to design, develop, and market tailored solutions under the "TRACT'MOI" brand.

Engineers by training with solid experience in metallurgy, we wanted to meet the concrete needs of farmers (livestock breeders, cereal growers, winegrowers, arboriculturists...). We have thus created

a range of mobility products specifically designed for them.

Today, CR INDUSTRY is a Vendée-based SME with 10 people. We design and assemble all our equipment in our own workshops, ensuring local, controlled manufacturing adapted to the demands of the field.

AGRICYCLES

electric bikes

all-terrain

Would you like to complete your equipment or simply benefit from a high-performance all-terrain electric bike designed for the most demanding conditions?

Choose Agricycles: 3 models, 3 ways to convince you.

Designed to combine power, comfort, and reliability, the CR20, CR24, and CR26 bikes are ready to take on any challenge. Bafang 250W motor (750W for private use), range

up to 90 km, long-lasting 48V batteries, reinforced tires... nothing stops them!

Aluminum frame, low or high step-through, luggage rack, front/rear lights: every detail is designed for practical and intensive use.

Choose the model that suits you, from a range of modern and robust colors.

DAYTIME RUNNING AND INDICATORS

The daytime running lights and indicators are designed to ensure optimal visibility and enhance safety

TOOLBOX FOR 23 L TOOLS

With this product, you can store and secure all your accessories.

SUPPORT JERRYCAN

This option allows you to carry up to 40 L: wash your hands, clean a part, etc....

SUPPORT TM2

The TM2 equipment allows you to carry a 2-wheel auxiliary vehicle directly on your tractor

WEIGHT AGRICULTURAL

This equipment combines the TM2 support with an agricultural counterweight offering loads of 500 kg, 750 kg, or 900 kg

LARGE STORAGE BOX

The 150 L storage box allows you to transport and protect your tools

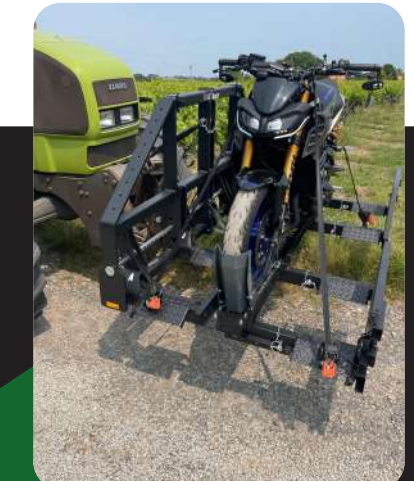

SUPPORT TM4

The TM4 equipment allows you to load a quad and adapts, like the TM2, directly onto your tractor

HELMET BOX 40 L HELMET

The helmet box, with its large capacity, will allow you to carry your accessories

MOTORCYCLE RAIL MOTORCYCLE

The motorcycle rail, the perfect adaptation to give your TM4 a new dimension.

PRODUCT SHEET

TM2: TRANSPORT YOUR TWO-WHEELER!

General equipment information

The TM2 equipment allows you to load a two-wheeled auxiliary vehicle directly onto your tractor. Hitch it to the front or rear, on the 3-point linkage, according to your needs, whatever the tractor.

Technical specifications:

- ↔ 3-point hitch category 2 (category 3 on request)
- ↔ Low offset
- ↔ Ergonomic design reducing the severity of road accidents
- ↔ Front and side signage included
- ↔ Payload: 1000 kgs
- ↔ Paint color grey or black, other color optional
- ↔ Optional headlight
- ↔ Sleeves included

The advantages:

- Fuel savings
- Independence: flexibility in organization
- Efficiency and performance: time saving
- Adaptable for everyone for better profitability
- Reduction of CO2 emissions

Which vehicles can be transported on my TM2?

- Scooter
- Bicycle
- Motorcycle (small size)
- Multiple compatibility...

JERRYCAN HOLDER

Stay autonomous with a few liters of liquid always within reach, even during operations.

- ↔ Capacity up to 40 L (two 20 L jerrycans)
- ↔ Painted steel holder
- ↔ 20 L jerrycan supplied with integrated tap
- ↔ Easily detachable
- ↔ Ideal for washing hands, rinsing a tool, or cleaning a surface

Optimize the use of your TM2 holder, even without a vehicle, thanks to this robust and practical storage box.

- ↔ 150 L capacity for maximum storage
- ↔ Aluminum design
- ↔ Quick attachment to the TM2 holder in just 30 seconds
- ↔ Two integrated handle holders for quick access to tools

150L STORAGE BOX

TOOLBOX

Keep your tools safe and within reach thanks to the 23 L lockable toolbox.

- ↔ Box lockable by key
- ↔ Weather-resistant
- ↔ Easily detachable from inside the holder
- ↔ Possibility to double the capacity with a second box
- ↔ Usable dimensions: 489 x 250 x 208 mm (L x D x H)

Secure your movements on the farm with the LED light kit, specially designed for the TM2 holder.

- ↔ LED daytime running lights and indicators for optimal visibility
- ↔ Integrated protective cover for greater durability
- ↔ 7-pin socket with extendable cable, easy to connect
- ↔ Optional kit for a complete and customized installation

DAYTIME RUNNING LIGHTS AND INDICATORS

THE QUALITY OF MADE IN FRANCE!

PRODUCT SHEET

QUAD CARRIER – TM4 HOLDER

General equipment information

The TM4 is equipment specially designed and manufactured to transport quads. It can be hitched to the front or rear of the tractor using the 3-point linkage, thus offering great flexibility. Its numerous adjustment features allow it to adapt in just moments to any quad model. When the quad is not being transported, the TM4 folds so that the offset is zero.

The advantages:

- Fuel savings
- Independence: flexibility in organization
- Efficiency and performance: time saving
- Adaptable for everyone for better profitability
- Reduction of CO2 emissions

Technical specifications:

- ↗ 3-point hitch
- ↗ Max load: 500 kg
- ↗ Max quad dimensions: Width 135 cm & max wheelbase 160 cm
- ↗ Unladen weight: 220 kg
- ↗ Daytime running lights and indicators
- ↗ Automatic fastening straps
- ↗ Signage and marker boards
- ↗ Front plate colors: standard in gray or black, custom colors available
